

ZYVORAI LABS · CUSTOMER DOCUMENTATION

# Aether

Getting Started

2026-08-26

## What you need

---

See [Admin basics](#) for ports and auth. Summary:

Open `http://<host>:5090` (or your deploy URL).

## 1. Open the product

---

Open `http://<host>:5090` (or your deploy URL).

## 2. Sign in / authenticate

---

OIDC + SAML + LDAP as configured.

### 3. Orient yourself

---

Use the quick map on the [customer docs home](#), then open the home surface ( / ).

## 4. First workflows

---

Follow [Common workflows](#) for the shortest useful paths.

## Next steps

---

- [Using the Dashboard](#)
  - [Admin basics](#)
  - [Page guides](#)
- 

Aether is organized by navigation groups (sidebar, desktop nav, or CLI command groups). Use search / command palette when available.

# Surfaces

| Need           | Path        |
|----------------|-------------|
| Command Center | /           |
| Fabric         | /fabric     |
| Migrations     | /migrations |
| Zyra           | /zyra       |
| Settings       | /settings   |

## Browse vs act

---

Inventory and status views are safe to explore. Mutating actions (deploy, migrate, sign, remediate) follow role gates and confirmation dialogs — review impact first.
